

Homelessness

How can we help?

Homelessness approaches
to North East Derbyshire
District Council from
1st April 2018.

The legislation around homelessness is changing with the introduction of the Homelessness Reduction Act (HRA 2017).

This will place more emphasis on the assistance each council in England can offer customers who have experienced or are about to experience homelessness. This will result in more customers being assisted as each council will no longer consider if a customer has a priority need or has made themselves intentionally homeless initially before they are assisted.

We will register a homeless application for all eligible customers who are homeless or threatened with homelessness.

From 1st April 2018, we will make every effort to prevent or relieve homelessness after registering an application before it makes a final decision on the application. This means that applications will be open beyond the current statutory guidance, which is 33 working days, whilst we try to assist each customer in preventing or relieving their homelessness.

If it is not possible to prevent homelessness in 56 days we will then help to relieve homelessness for another 56 days.

We will also start to register applications for those who are threatened with homelessness within 56 days to ensure that more people are assisted as soon as possible.

We will make our decision for whether people are owed the full housing duty at the end of the relief stage if the homelessness has not been resolved.

It will continue to provide some customers with interim accommodation where applicable while it seeks alternative solutions to their problems.

This will be our new way of working with all customers from April 2018. We are excited at the prospect of delivering even more of a prevention approach which will ensure that we are able to assist as many customers as we can.
